Congratulations

ON THE BIRTH OF YOUR BABY!

The birthplace at Hendrick Medical Center is committed to providing high quality care to you, your baby and family during this very exciting time in your life.

A goal of our staff is to provide you with the knowledge to be as prepared as possible to take care of you and your baby when you are discharged home.

We are aware this is a life changing event. The mother has been the center of attention during pregnancy, delivery and during the hospital stay. Now that focus is suddenly on the baby. This book is a guide to help you adjust and cope with the many changes in your life. Our professional staff of obstetricians, pediatricians and nurses are here to answer any questions or concerns you may have.

Thank you for choosing to have your baby at the Birthplace and allowing us to share in this special time in your life.
